STANDARDS DIVISION

DEPARTMENT OF TRADE AND COMMERCE

REPORT

FISCAL YEAR ENDED MARCH 31, 1952

The Standards Division of the Department of Trade and Commerce administers the Electricity Inspection Act, the Gas Inspection Act, the Electricity and Fluid Exportation Act, the Weights and Measures Act, the Precious Metals Marking Act, and the National Trade Mark and True Labelling Act.

ELECTRICITY INSPECTION ACT

Inspectors of the Electricity Inspection Service control the types of, test and stamp all electricity meters used for billing purposes throughout Canada. The number of electricity meters tested during the past year was 757,007. Test on new meters decreased by 31,412 while retests increased by 32,427, resulting in a net increase of 1,015 as compared with the previous year. The total number of meters used in Canada for billing purposes at March 31, 1952 was approximately 3,591,056, an increase of 185,714 over the previous year.

GAS INSPECTION ACT

This Act, administered jointly with the Electricity Inspection Act, provides for the control of types, testing and stamping of all gas meters used for billing purposes throughout Canada. The Act also provides for the testing of the calorific power of manufactured gas sold in Canada.

The total number of gas meters tested during the past year was 153,062. Tests on new meters decreased by 1,485 and retests by 9,623, resulting in a net decrease of 11,108 from the previous year. There were 2,703 calorific tests made during the past year. Total revenue under the Electricity Inspection Act and the Gas Inspection Act was \$657,547.85, an increase of \$357.05 over the previous year. This increase in revenue, in the light of a decrease of 10,093 meters tested was due to an increase in inspection fees for the larger capacity electricity meters.

ELECTRICITY AND FLUID EXPORTATION ACT

The number of kilowatt-hours of electrical energy produced for export during the fiscal year 1951-52 was 2,573,789,807 as compared with 2,140,353,074 for the previous year. The number of kilowatt-hours produced for use in Canada by the exporting companies was 6,707,633,735, a decrease of 125,401,132 from the previous year.

Export duty collected was \$743,406.79 in 1951-52 against \$608,601.82 for the previous year. Four new licences for the exportation of crude oil and one for natural gas were issued, and resulted in total licence fees of \$625.00 as against \$500.00 for the previous year.

WEIGHTS AND MEASURES ACT

The Weights and Measures Inspection Service is responsible for the testing and approval of all weighing and measuring equipment used for trade purposes in Canada.

During the fiscal year ended March 31, 1952, Weights and Measures inspectors called at 145,755 places of business, inspecting 435,333 devices ranging from counter scales, dormant or heavy duty scales, truck scales, railway track scales, to gasoline pumps and tank trucks. A total of 832,300 miles was travelled by these inspectors in the course of their duties. 185,944 certificates were issued for the devices tested.

Early in 1952, a new heavy duty test truck was purchased and equipped to check scales with capacities up to 65,000 pounds. It has been in operation only a short time, but its usefulness is already apparent.

Inspections were made by boat on the west coast of British Columbia and also on the coast of Newfoundland in order to reach fishing villages not accessible by road. A total of eleven months' inspections by boat was made during the past year.

Concentration by the field staff on short weight and unjust scale checking resulted in a tremendous increase in this phase of the work. 204,002 pre-packaged articles and 21,755 scales were spot checked. Warnings were issued to all offenders, and in a number of cases prosecutions were instituted.

In January 1952, the revised Weights and Measures Act and Regulations were proclaimed and put in force. An important change in the new Act is that net weight must now be shown on all prepackaged goods.

Revenue totalled \$508,962.54 in 1951-52 as compared with \$499,455.42 in 1950-51. Expenditures were \$621,449.24 as against \$576,041.48 for the same periods. These expenditures do not include allowances for depreciation on equipment, accommodation and related services, which are charged to the Department of Public Works. It was evident that a revision of fees which had been in effect since 1920 was necessary to offset the increasing costs of operation. A new schedule of fees was therefore put into effect early in January 1952.

STANDARDS LABORATORY

The Standards Laboratory lends important support to the field inspection work of the Standards Division. The main laboratory is located at Ottawa, with a smaller subsidiary Electricity and Gas laboratory located at Winnipeg.

The laboratory continually checks and calibrates for accuracy the local inspection standards used by inspectors of Electricity & Gas and Weights & Measures in the field. Comparisons of the Departmental standards with the official Dominion Standards are made at specified periods.

All new electrical and gas apparatus, weighing and measuring devices are given rigorous tests before being granted approval for use in Canada.

In addition, the laboratory assists in devising new methods and procedures for field inspection work.

The laboratory is increasingly being called upon to assist firms by checking and calibrating electrical instruments, weights, measures, etc.

PRECIOUS METALS MARKING ACT

There has been a small but steady annual increase in the Canadian production of gold, silver, gold plated and silver plated articles and, at the year-end, total production was approximately \$54,000,000.

Permissible quality marks and authorized trade marks are applied to their products by the respective manufacturers and a constant inspection of retail, wholesale and manufacturers stocks is maintained to see that marks are applied in conformity with the Act

With the co-operation of the Department of National Revenue, shipments of precious metal articles coming into Canada are also inspected to ensure correct application of required quality and other marks. Tests are also made of gold and silver articles as a check of precious metal content and to ensure that it is not below the minimum set by the Act. Newspapers are also carefully inspected and checked in order to eliminate misleading advertising.

NATIONAL TRADE MARK AND TRUE LABELLING ACT

As previously stated, the "Canada Standard" trade mark has been applied only to Babcock test bottles. During the past year, a start has been made to establish a "Canada Standard" for sizing children's and women's garments. The possibility of applying the "C.S." trade mark to some other commodities was thoroughly investigated but was not considered possible at the present time.

In addition to the labelling regulations already in effect covering hosiery and fur garments, regulations relating to the labelling of turpentine were also enacted during the past year. Other investigations are presently being carried out.

APPENDIX A

For purposes of inspection under the Electricity Inspection Act and the Gas Inspection Act the provinces of the Dominion have been divided into the following districts:—

DISTRICT—	DISTRICT COMPOSED OF—
Charlottetown, P.E.I.....	Province of Prince Edward Island.
Halifax, N.S.....	Province of Nova Scotia.
Saint John, N.B.....	Province of New Brunswick.
Quebec, P.Q.....	Counties of Beauce, Bellechasse, Bonaventure, Charlevoix, Chicoutimi, Dorchester, Gaspé (North and South), Kamouraska, Lac St. Jean, Lévis, L'Islet, Lotbinière, Matane, Matapédia, Mégantic, Montmagny, Montmorency, Portneuf, Quebec (East, South, and Centre), Rimouski, Roberval, Saguenay, Témiscouata and the Magdalen Islands.
Trois-Rivières, P.Q.....	Counties of Abitibi, Arthabaska, Berthier, Champlain, Joliette, Laviolette, Maskinongé, Nicolet, Richelieu, St-Maurice, Yamaska.
Montreal, P.Q.....	Counties of Beauharnois, Bagot, Chambly, Châteauguay, Drummond, Huntingdon, Iberville, Jacques-Cartier, Labelle, Laprairie, Laval, Missisquoi, Montcalm, Napierville, Rouville, St. Hyacinthe, Hochelaga, St. Johns, Terrebonne, Verchères, Brome, Comp-ton, Frontenac, Richmond, Shefford, Sherbrooke, Standstead and Wolfe.
Ottawa, Ont.....	That part of the Judicial District of Nipissing lying south and east of and including the townships of Ballantyne, Wilks, Pentland, Boyd, and Cameron, the Counties of Carleton, Dundas, Glengarry, Lanark, Prescott, Grenville, Renfrew, Russell, Stormont, and the towns of Athens, Newboro and Westport in the county of Leeds in the Province of Ontario, and Argenteuil, L'Assomption, Labelle, Pontiac, Soulanges, Two Mountains, Vaudreuil and Wright in the Province of Quebec.
Belleville, Ont.....	Counties of Addington, Durham, Frontenac, Haliburton, Hastings, Leeds (exclusive of Athens, Newboro and Westport), Lennox, Northumberland, Peterborough, Prince Edward, Victoria and Ontario.
Toronto, Ont.....	Judicial Districts of Muskoka, Parry Sound and the Counties of Dufferin, Grey, Peel, Simcoe, Wellington and York.
Hamilton, Ont.....	Counties of Brant, Haldimand, Halton, Lincoln, Norfolk, Waterloo, Welland and Wentworth.
London, Ont.....	Counties of Bruce, Elgin, Essex, Huron, Kent, Lambton, Middlesex, Oxford and Perth.
Sudbury, Ont.....	Judicial Districts of Algoma, Manitoulin, Sudbury and Temiskaming and part of the Judicial District of Nipissing lying north and west of the townships of Ballantyne, Wilks, Pentland, Boyd and Cameron.
Fort William, Ont.....	Judicial Districts of Kenora, Rainy River and Thunder Bay.
Winnipeg, Man.....	Province of Manitoba.
Regina, Sask.....	Province of Saskatchewan.
Calgary, Alta.....	All that part of the Province of Alberta lying south of the northerly boundary of township No. 37.
Edmonton, Alta.....	All that part of the Province of Alberta north of the northerly boundary of township No. 37 and the North West Territories
Nelson, B.C.....	That part of the mainland of the Province of British Columbia lying east of the 120th Meridian, excluding the Okanagan Valley.
Vancouver, B.C.....	That part of the mainland of the Province of British Columbia lying west and north of the 120th Meridian, all Islands (other than Vancouver Island), Yukon Territory, and the Okanagan Valley.
Victoria, B.C.....	Island of Vancouver.
